BUSINESS COACHING

HOW YOUR BUSINESS WILL BENEFIT

We'll arm you with the solutions and tools you need to create a secure, satisfying and successful future with customised business coaching. We can help you;

- Take control and form a thorough understanding of your own cashflow and budgeting
- Create and implement a solid business strategy
- Discover new ways to generate leads for your business
- Create or enhance back end processes and systems
- Maximise staff management and implement retention solutions

YOUR INVESTMENT

To establish your business needs and pinpoint your problem areas and goals, we run a free 90 minute session that costs you only your time.

We then assess your coaching requirements which start from as little as \$1,000. It's during this phase that we set you up with all the skills you need to kick-start your dream, release current roadblocks and ultimately run a successful business.

AND WE KEEP YOU ACCOUNTABLE EVERY STEP OF THE WAY.

THE BREAKDOWN

THE COACHING BREAKDOWN

Our goal is to arm you with the solutions and tools you need to create a successful business.

CASHFLOW AND BUDGETING

Most business owners are very good at plying their trade but need some assistance with managing the income and expenses to do with the running of the business but more importantly distinguishing this from personal expenses and allocating for various parts of their life. We drill down for you heavily on this.

BUSINESS STRATEGY

You need to know where you want to take your business over the long term so that your short term action steps become clear and concise. Are you a business owner that works week to week with no visions for the future? We ensure that you look after both! Is your business a cash cow business or is it a scalable business that you can on-sell in the future? We help you identify and enhance this.

LEAD GENERATION

The days of putting an ad in the newspaper or the back of a bus are gone. Welcome to the new age way of creating new business and you need to adapt with change to secure your future income. Working on the business and not in it is always difficult so we create systems that allow you to do both.

BACK END PROCESSES AND SYSTEMS

Does your office look like a dog's breakfast? If it does, there's a good chance that your back end systems are also a shambles and you feel like you are constantly chasing your tail and never getting ahead. Maximising your time and ensuring efficiency are what we focus on to allow you to do what you love best.

STAFF MANAGEMENT AND RETENTION

Are you losing staff or can't find good reliable staff? Don't blame your staff, blame your lack of systems. Do you need to add staff to your business so that you are free to look forward on your business and not constantly in it? We assess your business or your new business plan to obtain the right mix that will work for you and your business for long term outcomes.

ABOUT YOUR COACH

DIRECTOR AND HEAD COACH JOHN PIDGEON

John Pidgeon is Solvere's Director and Head Business, Property and Finance Educator. He has a Bachelor of Education and has been coaching and teaching people in businesses, sport, education and property for 20 years. He digs deep and doesn't mind getting his hands dirty while uncovering the best ways to propel your business forward. Start-ups are his passion and he has extensive experience in all areas of business from cashflow to staff management, sole operators to franchisers, scalable to cash cow. If you're ready to take your business to the next level, the time is now.
